Fire Chief's Report for October 2023

FIRE & EMS Report

Response calls: 75 Fire runs, and 156 EMS calls were made in October for a total of 231 calls for service.

CPR: There were no CPR classes in October. CPR classes are available if citizens call and ask.

Training: Members have completed over 2500 hours of training through the month of October. Topics covered this month included Fire Investigations, Fire Control, PPE, Ventilation, as well as EMS continuing education. Training continues year-round, and we constantly train to ensure everyone is up to date.

FIRE INSPECTIONS

Crews completed 5 inspections in October.

KNOX BOX PROGRAM

There were no new Knox Boxes installed in October.

BURN PERMITS

One burn permit was issued in October. The burn ban was lifted October 1st. Any open burning within the city limits must have a burn permit issued from the fire department.

PUBLIC ACTIVITIES AND EVENTS.

The new hires continue to train. They are fitting in and are turning into valuable assets for the department.

I attended a 40-hour fire investigation technician class. As the AHJ, it ultimately is my responsibility to investigate causes/origins of fires and this class is just another tool in the "toolbox" for fires.

One of our Officers, Lt. Lynn, was asked to be on an interview panel for promotions at another department in the area. This speaks volumes to the reputation of FDBD and officers to have an outside department look to us for assistance with their promotions.

Another of our members, firefighter/medic Chris Combs completed a Fire Officer 1 class. This class is for either newly promoted officers or members looking to be promoted. This class only helps our members prepare for the future. We have members signed up for future classes to become certified instructors. Again, these classes only strengthen our abilities to perform our duties for the cities.

We have started winterizing the hydrants in the cities. We will be out putting hands on every fire hydrant in the city, ensuring that it functions properly, the fittings and caps greased, and drained of any excess water. This process allows our firefighters to learn where the hydrants in the cities are located, and our newer members are out learning the streets as well. This is done every fall.

As always, my door is open if anyone has any questions or concerns,

Respectfully submitted,

Chief Adkins
