Dayton Report 2026 April

Thursday 4/2/26 Got a call about a dog crying in distress. They did not know the address it was coming from. I found the dog crying at 1116 4th. It sounded like it was in the house and the window was open. I left my card and the owner called me back. He said the dog is a husky/shepherd mix and has separation anxiety. Huskys are very vocal anyway. He said he will shut the window.

Friday 4/3/26 A dog was found on Dayton pike and posted on facebook. It had a microchip so I tried to run the chip and could not get any information. They did end up finding the dog's home and I updated the chip in Shelterluv in case campbell county scans the dog again.

Tuesday 4/7/26 Got a complaint from Cassie about 404 10th having 6 dogs and stool all over the yard. Left a Notice and the owner called me back. She has 4 dogs and will get them to the vet for rabies vaccines. She also cleaned up the yard. One of the dogs suffers seizures and she don't think it will be around very long.

Called out for an injured cat at 6th and Main about 7 pm. The officer was holding the cat when I got there. The cat looked bad and did not have a chip. Someone said the lady at 816 7th took care of the cat. So I went there to give her a chance to take the cat to the vet. She did not want to take responsibility for the cat. I also remembered Amber Roberts was feeding this cat. So I called her. She thinks the cat needs to be euthanized. She said he has deteriorated lately. I took the cat to VEG and they did a good Samaritan euthanasia. Cat was missing all his teeth, had open wounds, his ears were infected and he was thin and dehydrated.

Thursday 4/9/26 I got a report from Dayton police about a dog that the owner wants back and the lady he was living with won't give it back. The lady Victoria Thompson from 404 10th said Mark Johnson gave the dog to their friend Danny. Danny took Medusa and Buddy to Indiana. So Victoria did have 6 dogs at one time. I spoke to the shelter and they said since the dog is not microchipped nor has any vet records in anyone's name it was a civil matter. I informed Mark he needed to sue her in civil court.

Friday 4/10/26 While patrolling I saw a dog loose on 4th. He lived at 507 4th and the owner got him back in.

Got a call from 605 4th about cats that need TNR there are 2 pregnant cats and one with kittens. I tried to contact a volunteer to help trap them, but she was on vacation.

Picked up a dog from Allen Smith that came from Saap. His sister adopted the dog and she fell and broke bones and needed surgery today. She can no longer care for the dog. Saap took the dog back.

Got an email complaint from Cassie about 513 5th having 2 large shepherds that charge the fence aggressively. When I arrived the dogs did not bark. One was in the house and one was in the side yard. The dogs names are Buster and Brutus they are due for a current rabies vaccine. The front yard has a worn spot running along the front fence where the dogs run the fence line. She said they never have jumped the fence and she would get them up to date on their rabies vaccine.

Tuesday 4/14/26 Called out at 2am for a raccoon that fell thru the ceiling at 931 6th apt. 1. The raccoon was in the window of the bedroom. I was able to remove it.

Wednesday 4/15/26 Got a complaint about 2 grey pit bulls that live on McKinney that run loose. The caller did not know the address. I asked someone that lives in the area but they were not familiar with the dogs. I will monitor the area.

Friday 4/17/26 Got a complaint that the 3 dogs and rabbit at 502 Main have been abandoned for 2 months. The dogs are crying and barking. I was able to make contact with the owner and she is taking care of the dogs several times a day. She no longer has a rabbit. She does have 2 turtles and 3 dogs. I was able to go by and see the dogs out in the front yard. They look fine.

Sunday 4/19/26 Called out at 5pm for a husky that had traffic backed up. Officer Howell caught the dog. He had a chip and I was able to get him back to his owner at 208 3rd.

Called out at 11PM for an owner that was arrested and she had a dog in the car at 5th and Main. Impounded the dog. The owner got out the next day and picked the dog up from the shelter.

Monday 4/20/26 got a complaint about 410 Fairview having an aggressive dog that the neighbors are afraid of. I met the owner and the dog. The dog is a 30 pound cattle dog type. She is very nervous. The owner was advised not to let her out without a leash and to get her a current rabies vaccine. He invited me in and the dog nipped at my knee. This is very typical behaviour for a cattle dog. They are nippers. They like to bite and retreat. I expressed concern that the dog could bite someone and he needs to make sure that does not happen. Owner was very nice and cooperative.

Wednesday 4/22/26 Spoke to 1220 5th about their dog crying and barking when left alone. The dog is a 8 month old shep mix pup and is learning about the crate and having issues.

He put the dog in the crate while I was there and the dog started crying. I discussed calming techniques.

Thursday 4/23/26 got some pictures of a dog with hair loss that lives at 514 2nd. I have spoke to the owner before about getting the dog to the vet. Money is an issue. He said he gets paid on Monday and will take Copper to the vet then.

Thursday 4/30/26 got a call about an older black and white dog running at 5th and Main. I could not locate any dog, but think it could have been Dexter who lives on 6th.
