Projects	November 2026 Meeting Update
APPROVED/ONGOING PROJECTS	
6-453 Dayton Riverfront Commons Ph 2 and 3 12' wide concrete bicycle/pedestrian trail and conduit for future lighting from Berry Street to Fourth Avenue. [Designer is KZF]	All work is complete except we need protective railing on the river side of the path for at least 300-400 feet. PRIME has notified us that they believe their scope of work has been completed and that they will not be participating in the rail design. Compass will get survey scheduled to determine the limits of the railing. PRUS will get costs for the railing based on the lengths provided. It would be good to get construction fencing placed in the steep areas until the permanent railing can be placed.
6-3228 Dayton Pike Sidewalk Connector (Ph 2) New 1500' of 5' sidewalk along west side of Dayton Pike	All consent and release forms have been signed. KYTC is saying that they will not accept consent release forms and that the full blow right of way process will need to happen. We are working to see if there are alternative solutions to this. Comments back on the plan submittal were sent to PRIME AE to address.
Ramp from Berry Street to Riverfront Commons River's-Edge Trail	We have alternative alignments designed based on survey data and are sending to APS Geo to coordinate the need for retaining walls.
Upper Riverfront Commons Trail Improvements Improve the existing trail at the top of the earthen levee that runs along the south side of Manhattan Boulevard	The project was awarded grant funding through OKI. The MOA authorizing the design funds has been signed be the City and submitted to KYTC for signature on their end. The City has requested a kickoff mtg to get design started.
7th Street Slide	Alan Stone Co has started work. An outage is scheduled for Thursday 11/5 so that drilling can occur in the area near the end of the street where the service lines cross. We will continue to look for funding opportunities to help with the roadway restoration. An LARP application was submitted for this the last week of September.
Third/Fourth and Walnut Stormwater Mitigation Project	Reimbursement to SD1 is ready for submittal if it hasn't been submitted already.
2025 Resurfacing	Complete
New Public Works Facility	Working on RFP/RFQ

Dayton Pike Stormwater Mitigation Project	SD1 does not fee this is a good candidate for the public cost share.
Grant Park/Manhattan Blvd/7th Street Alley Public Cost Share through SD1	SD1 public cost share has been submitted to SD1 with updated plans and easement documents. SD1 Comments on Grant Park submittal have been address. Working with Kevin at TMS to get the work started on Manhattan Blvd.
PROPOSED PROJECTS	
RAISE (TIGER) Grant Opportunity	May be advertised for design soon.

Fire and EMS responses

Of 168 total responses. A call is a fire response when 201/203/210/235/250 is dispatched and an EMS run when 280 is dispatched. 26 responses drew both and are counted in each figure, so the two do not add up to the total.
